VVNT SEQUOR LLP · PROPRIETARY PLATFORM

AI Colleague™ *Agentic Workforce Automation*

Digital colleagues for real business work — not just another chatbot.

Role-Specific AI Agents | Human-in-the-Loop | Governed Automation

AI Colleague™ by VVNT SEQUOR LLP is an agentic workforce automation platform that deploys role-specific AI agents able to reason, decide, collaborate and execute work across business systems — all under defined governance and approval controls.

PLATFORM COVERAGE

01	02	03	04	05
HRMS & ATS	Enterprise Applications	Service Management Systems	Collaboration & Knowledge	AI & Business Workflows

NOT JUST ANOTHER CHATBOT

Purpose-Built Digital Colleagues

Unlike generic AI assistants, each agent is built for a business function — recruitment, onboarding, employee support, service operations, compliance, customer interaction and knowledge management.

Key Features

- Role-Specific AI Agents
- Multi-Agent Collaboration & Handoffs
- Intelligent Decision Routing Engine
- Human-in-the-Loop Approvals
- Business Process Automation
- Cross-System Execution
- Context-Aware Agent Memory

- Customer Service Automation
- Service Desk & Ticket Management
- Compliance & Policy Workflows
- Knowledge Management & Support

Business Outcomes

- Increased Workforce Productivity
- Faster Process Execution
- Reduced Manual Effort
- Improved Employee Experience
- Better Decision Consistency
- Lower Operational Costs
- Greater Process Visibility
- Scalable Digital Workforce Operations

Ideal For

- Growing Businesses & Enterprises
- HR & People Operations Teams
- Shared Services Organizations
- Professional Services Firms
- SaaS & Technology Companies
- Digital Transformation Programs

Why *AI Colleague™*

Agents work like specialised digital colleagues, not generic assistants — operating within defined guardrails, collaborating across functions and escalating to people when judgment is needed. Automation without sacrificing governance or accountability.

Specialised agents | Defined guardrails | Human escalation | Governed & accountable

PLATFORM CAPABILITIES Agentic Workforce · AI Colleague · Digital Workforce · AI Employee Assistant · Business Process Automation · Enterprise AI Agents · Workforce Productivity

Request a live demo or pilot — identify automation opportunities and establish a governed AI workforce model for your business processes.

An AI workforce, *not just AI tools.*
