VVNT SEQUOR LLP · DIGITAL ASSURANCE

Software Testing, Quality Engineering *& Digital Assurance*

Reliable, secure, scalable and user-friendly applications — with fewer defects and lower release risk.

Independent V&V | Functional & Non-Functional | Risk-Based Quality Engineering

VVNT SEQUOR LLP helps startups, SaaS companies, product organizations, enterprises and digital platforms improve software quality, reduce release risk, validate business requirements and enhance customer experience — through independent assessments across web, mobile, cloud, enterprise and API-driven applications that find defects early, improve performance, strengthen usability and support successful deployments.

APPLICATIONS WE TEST

01	02	03	04	05
Web Applications	**Mobile Apps**	**APIs & Interfaces**	**Cloud & SaaS**	**Enterprise Systems**

DELIVERED WITH

VVnT Converge™

Our proprietary Digital Quality Assurance platform for test management, defect tracking, automation, quality metrics, reporting and continuous validation across the delivery lifecycle.

Our Services Include

- Software Testing & Digital QA
- Quality Assurance & Quality Engineering
- Independent Validation & Verification
- Application Testing & Digital Assurance
- Functional & Non-Functional Testing
- End-to-End Software Quality Assessments
- Test Planning, Execution & Reporting
- Release Readiness & Quality Reviews

Testing & QA Coverage

- Functional Testing
- System Testing
- User Acceptance (UAT)
- Security Testing Support
- API & Interface Testing
- SaaS & Enterprise App Testing
- Integration Testing
- Regression Testing
- Performance & Load Testing
- Accessibility Testing
- Web & Mobile App Testing
- Independent V&V (IV&V)

Key Deliverables

- Test Strategy & Test Plan
- Test Cases & Execution Reports
- Defect & Quality Dashboards
- Requirements Traceability Matrix (RTM)
- UAT Reports
- Performance Assessment Reports
- Release Readiness Reports
- Quality Improvement Recommendations

Industries Served

- SaaS & Technology Companies
- BFSI & FinTech
- Healthcare & HealthTech
- Retail & E-Commerce
- Logistics & Supply Chain
- Manufacturing Organizations
- Government & Public Sector
- Enterprise Digital Transformation

Why *VVNT SEQUOR*

Expertise across Software Testing, Quality Engineering, Digital Assurance, Accessibility, Cybersecurity and AI Assurance — independent, risk-based validation that reduces defects and production issues, improves user experience and accelerates releases.

Fewer defects | Faster releases | Better user experience | Independent & objective

RELATED SERVICES Test Automation & Continuous Quality Engineering · AI Testing, Evaluation & Responsible AI Assurance · WCAG Accessibility Audit & Compliance · Accessibility Testing & Inclusive Digital Experience · Cybersecurity Assessment, Assurance & Resilience

Release with *confidence.*
