VVNT SEQUOR LLP · PROPRIETARY PLATFORM

VVnT Converge™ *Digital Quality Assurance Platform*

Release better software faster — with continuous quality, lower delivery risk and compliance readiness.

One Platform | Continuous Quality | Faster Releases · Lower Risk

VVnT Converge™ by VVNT SEQUOR LLP is an AI-powered Digital Quality Assurance and Verification, Validation & Testing (VV&T) platform that helps organizations release better software faster, reduce delivery risk, improve compliance readiness and scale quality engineering — unifying testing, automation, governance and quality intelligence in a single platform.

PLATFORM COVERAGE

01	02	03	04	05
Web & Mobile Applications	**APIs & Microservices**	**SaaS & Enterprise Apps**	**AI & GenAI Solutions**	**Chatbots & Virtual Assistants**

TECHNOLOGY FOUNDATION BEHIND

VVNT SEQUOR Services

Software Testing · Test Automation · AI Assurance · Accessibility · Security Validation · Compliance — one platform behind our quality and assurance services.

Key Features

- AI-Powered Test Design & Execution
- Automation for Web, Mobile, APIs & AI Apps
- CI/CD & DevOps Integration
- Accessibility & Inclusive Experience Validation
- Centralized Test, Defect & Quality Mgmt
- Quality Dashboards & Reporting
- Functional, Performance, Security & Compliance Testing

Supported Use Cases

- Software Testing & Digital Assurance
- Test Automation & Quality Engineering
- AI & LLM Testing
- Accessibility & WCAG Validation
- Security & Compliance Testing
- Release Readiness Assessments
- Continuous Quality Monitoring

Business Outcomes

- Faster Release Cycles
- Reduced Defects & Rework
- Improved Product Quality
- Greater Automation Coverage
- Better Compliance Readiness
- Enhanced User Experience
- Lower Delivery Risk
- Improved Engineering Productivity

Ideal For

- SaaS & Product Companies
- Enterprises Modernizing Legacy Systems
- AI Solution Providers
- Quality Engineering Teams
- DevOps & Platform Engineering
- Digital Transformation Programmes

Why *VVnT Converge™*

Unlike standalone testing tools, it combines quality engineering, automation, AI assurance, accessibility validation, security testing and compliance verification in one platform — end-to-end visibility, standardized testing and actionable insight.

One unified platform | End-to-end visibility | Standardized testing | Actionable insight

PLATFORM CAPABILITIES Digital Quality Assurance · Verification & Validation · Test Automation · Continuous Testing · AI Testing & Assurance · Accessibility Testing · Security & Compliance Validation · Enterprise QA

Request a live demo or pilot — benchmark testing maturity, find automation opportunities and improve release confidence.

See quality.
Reduce risk.
